

Student iPad Setup

Welcome to your new iPad, follow the instructions below to get started.

1. Power on the device by pressing the power button on the top right of the device.
2. Follow the on screen instructions.
 1. Choose the language (English)
 2. Choose the Location (United States)
 3. Select Set up Manually in the bottom of the screen

4. Choose your WiFi network (setup cannot complete without a wireless network connection) once entered it may take a little to find the remote management server, please be patient. Once the remote management screen appears click next.
5. Review the Student AUP that shows up on the screen, scroll to the bottom and click accept.
6. You will see a jamf | SCHOOL screen, enter your child's Google username and password from PowerSchool (You can look this up in PowerSchool on the web under the option for Tech Info)

7. Once that is done you will see the home screen of the iPad which looks like this
 1. In the middle it will have your child's name, the asset tag of the device and the version of the Operating System running on the device.
 2. A link to the District Home Learning Website.
 3. A user portal to get updates, download apps, and documents.
